

# Experiential Learning Trip Risk Management

May 29-30, 2026

## ABOUT THE COURSE

The course content includes **good safety practices**, standards and theories to help faculty, staff, chaperones and trip leaders **achieve excellence** in risk management for experiential learning trips.

Participants **develop skills** and **knowledge** essential to maintaining an effective safety management system for their off-campus trips and adventure activities.

This **16-hour training** is held over two days. The class combines lecture-based instruction with case studies, role plays and scenario-based discussions.

Graduates receive a course certificate from Viristar valid for three years.
